

UIF-Covid-19 TERS National Disaster Application System

The TERS UIF fund is open to the following categories:

- Applicants that have not been able to work from 16 March 2021 to 25 July 2021 due to lockdown restrictions.
- Workers that have been impacted or are currently impacted by level-4 restrictions.
- Workers who have not been able to work if they are over the age of 60 or have co-morbidities.
- Workers that have had to isolate or go into quarantine during the period of 16 March 2021 to 25 July 2021.

How to apply:

To apply for the available funding, employers must complete an [online application](#) and submit the necessary documents.

Applicants must register on the online portal or log an existing profile that has been created. It is important to note that if this is the first time that you are applying, an applicant must create an online profile, follow the electronic prompts, sign the MOA and letter of undertaking along with uploading a bank confirmation letter.

It is important to prepare and submit the following documents:

1. A signed approval or acceptance letter
2. Current bank confirmation letter
3. Proof of payment to employees for previous benefits claimed and received for the prior period such as EFT, payroll, report or pay recon.
4. Refund to the UIF (only if applicable)
5. Letter of authority

Employers must indicate the monthly salary for their employees when completing the application.

There are several columns that must be completed within the online application by the employer and are inclusive of monthly salary, remuneration earned for hours worked (excluding leave income and advance), applicable codes based on a detailed document and more.

The banking details of employees submitted by an employer will be subjected to verification and in the case that an employee does not have a valid bank account, the UIF is willing to distribute the funds to an employer at their discretion and on a case-by-case basis.

Further information on the process can be found in a detailed UIF document [here](#) which indicates the relevant codes applicable and other necessary details.
